Technique of the Month

Our technique of the month is comb painting! We started by making a modelling paste using acrylic paint, PVA glue and talcum powder. When then used a palette knife to spread that on our paper before using hair combs to drag across lines and details. The patterned pieces are effective and sophisticated.

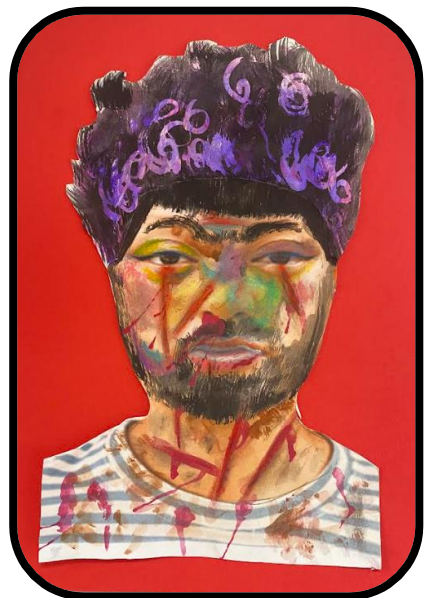

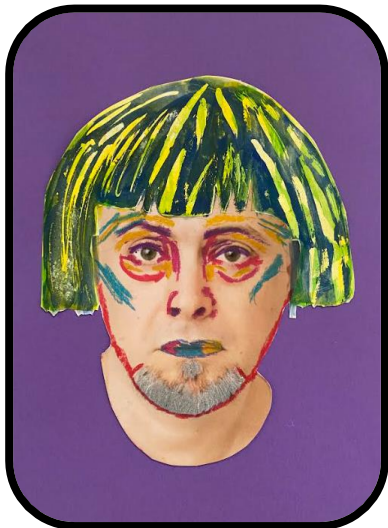

Moving On?

Belong

Art Inc wishes all the best for our young people who aren't returning next term. We know they will continue to build on their success!
